

JUMO GS2 Task Lamp

\$1100

Ref. INV/0504

Jumo's GS2 task lamp with clamp, designed in 1960, was widely used in French offices until the 1970s. Its name is derived from creators Yves JUjeau, Pierre and Andre MOnique. While little is known about its designer, the lamp has a modernist look with classic touches. It features 2 articulations, a large polished aluminum reflector, and a solid base, providing stability in all positions.

Dimenisons: H.20-24, D, reflector 7.1/4, striped, rewired.
